

## How Can We Prevent Unconstitutional Laws?

How can we stop abuses to our Constitution?

- 1<sup>st</sup>. We need to know what Congress is doing.
- 2<sup>nd</sup>. We need to Vote the Abusers OUT.
- 3<sup>rd</sup>. Our most effective defense may be the proposal by [TacticalCivics.com](https://TacticalCivics.com): their [Indictment Engine](#).

Once we pass the BCHA ([Bring Congress Home Act](#)), we will see our Servants' (Elected Representatives or Senators) proposed legislation, BEFORE it is passed, through a Tactical Civics "app" on a mobile device.

If any of our Servants commit crimes against residents of their State, the Tactical Civics Legal Staff will Immediately prepare Criminal Presentments for a Grand Jury. Then, an informed Grand Jury hands down FELONY INDICTMENTS (to be tried in the politician's home State courts).

The Local Militia will have & support a large number of "Citizen Plaintiffs" in State Criminal Court cases against Individual Members of Congress, or a State Legislature, for crimes against the politician's State Laws – conspiring to pass a law that violates our Highest law – the Constitution.

Those indicted will be offered a "plea-bargain deal" like that offered to King Ethelrod in the year 1014 and to King John in the year 1215:

*"Obey the law and agree to our terms or go to prison with your assets seized!"*

Those not targeted will get essentially the same offer, but as an "immunity deal":

*"Obey the Constitution and help pass [22 Legislative Action reforms](#) to restore our country and ensure that government works for its true sovereigns, We the People."*
