Now Our Duty Begins

We elected Donald Trump; now *We The People* drain the swamp. On Independence Day 2017, join [the responsible remnant](#) at your state capitol at 2pm Eastern as we launch Operation [Let's Trump DC](#).

The Swamp: Snakes and Granite Domes

As we explain on our [FAQ page](#), *AmericaAgain!* does not accept public servants as members because they have a conflict of interests. We [the Makers](#) are on one side of every tax bill, and they, [the Takers](#), are on the other side.

Our first action item in Operation *Let's Trump DC* is to finish ratifying the original first article in the Bill of Rights. That will restore small House districts, so we can bring 6400 new term-limited faces into the U.S. House every two years. Citizen-statesmen, not political careerists.

Term-limiting Congress to constantly replace them with fresh citizen-statesmen is a first step, but understand two hard facts about the swamp: First, for every servant we elect, we are also paying for 100 un-elected, unseen servants over which we have no oversight or control.

Secondly, politicians throughout history have been regarded as snakes. The swamp hatches a new arrogant snake as soon as a politician takes office under a granite dome. For instance, on four occasions we have personally experienced treachery from state legislators — all of whom are young ‘TeenPact’ Christian homeschool alumni!

Everything a politician does shows that he considers himself your superior. Everything a statesman does, shows his servant attitude.

[You are a sovereign. Never ask a politician for anything.](#)

[Click To Tweet](#)

You are a sovereign. Never ask a politician for anything; either command them to do things stipulated in law or demanded by common decency – and then publicly hold their feet to the fire – or don't play with the snake at all.

The Occupying Army

Americans are up in arms at 12 million illegal aliens and thousands of Islamic immigrants transforming America's culture, economy, and infrastructure into another crumbling Europe, all because of idiotic political correctness. Recently in [this article](#), we introduced our proposed legislation to arrest the Islamic invasion. It isn't rocket science.

But despite our concern about illegal alien and Islamic jihadist invasions, Americans have no problem with an occupying army of 21 million government careerists who call themselves public servants, yet their sovereigns cannot question, reprimand, or fire them.

Imagine the entire population of Albania, Belize, Greenland, Grenada, Iceland, Ireland, Panama, New Zealand, and Norway. That is 21 million people; the massive army occupying every American community with two goals: 1) keep their secure salary and benefits flowing for life; 2) recruit new parasites to grow their budget. Every bureaucrat pushes for tax increases, bond issues, new fees, and new expenditures.

As with Islamic jihad or illegal alien invasion, why would anyone think this occupying army will just one day decide to shrink itself?

America was called The New World because European and English settlers were enchanted at the unspoiled beauty of our huge land mass and the promise of liberty to work, invent, risk and invest without having to worry about Old World taxes, fees, tributes, regulations, and bureaucrats everywhere. But as Ronald Reagan said, we get more of what we pay for: mushrooming school district, city, county, state, and federal bureaucracies as graphically depicted in [THIS](#) article.

As we frogs in the kettle slide into Old World socialism, an un-elected occupying army among us enjoys job security, salaries and benefits that we can only wish for; fat pensions that we will never enjoy; beautiful offices and vehicle fleets that we would never splurge for. *All of it paid for by us.*

Parental Responsibility

Yet many public employees have the bad attitude that one sees in every lazy, spoiled child. Arresting this problem is beyond any president's control.

[You can scarcely keep your small business afloat, while every public employee you know has job...](#)

[Click To Tweet](#)

You can scarcely keep your small business afloat, while every public employee you know has job security and vacations — because the occupying army is eating half of what productive America is making. You see, our feisty new president can be tough with foreign countries and cut hard deals with corrupt corporations. Those chores are in his job description.

But if our descendants are ever to see the New World again, We the People have a duty to perform; a *responsible* new way of life to live.

Join us at your state capitol on the 4th of July as we launch it together.
