

***AmericaAgain!* Frequently Asked Questions**

Q: What is AmericaAgain?

It is a missionary outreach to the America people; a membership organization and private perpetual charitable trust whose work is to recruit, train, support, and organize Americans to learn remedial civics and the Constitution, to enforce constitutionally-limited government, to superintend our public servants, and to live as free and self-governing people.

Q: What is my dues payment of \$9/month used for?

Presently, we have only a few hundred members so our founder raises missionary support to make up the difference. When member dues are sufficient to support it, we will begin hiring AmericaAgain! support staff including Legal Section, video production team, logistics and member support, AmericaAgain! Liberty Labs analysts, special events and publications, education and training, logistics, PR and media relations to continue improving our historic mission.

If dues revenues exceed operating and startup requirements, AmericaAgain! Trust Foundation will distribute the surplus to five trust beneficiaries: Atlas Network, Faith Comes By Hearing, Heifer International, Hope International, and Living Water International.

Q: AmericaAgain! has a beautiful website but what if the Internet goes down?

Laser focused on our first action project, Ratify28, we will not be drawn off target. We do not think it likely that the Internet will go down for a protracted period. To shut down the Internet, you would have to shut down all the routers worldwide so that the world's network of networks cannot connect to each other, then disable all DNS services and servers, including the 13 Root Name Servers. The original idea that DARPA and the collaborating universities had in devising the Internet was to develop increasing scalability and server fault tolerance (redundancy) worldwide as the network of networks grows.

If you are concerned about this issue, you can visit our forum area dedicated to ham radio operators. Mike Routen, our Forum Director, is a licensed amateur radio operator.

You can buy a handheld ham radio (dual-band) on Amazon or eBay for under \$100. You can learn more by contacting your local ham radio club or the American Radio Relay League website here.

Q: What will AmericaAgain! do for me?

- 1) Our videos, podcasts, blog articles, and free eBooks *Fear The People* and *Mission to America* teach you the basic history and civics you never had in school.
 - 2) In 2017-18 we are recruiting, equipping, and coordinating members across America, focusing on the 31,000 towns of less than 10,000 residents. By building small groups in churches we will forge AmericaAgain! communities so that members will no longer stand alone in our concern for America.
 - 3) When we have sufficient AmericaAgain! towns in your state, we will move to get the 28th Amendment (original First Amendment) ratified. Already ratified by 11 states, it will shrink congressional districts to the founders' 50,000 people maximum.
 - 4) After ratifying, we will help elect citizen-statesmen for the 6400-seat U.S. House with our AmericaAgain! Good Guys™ campaign. Even if every incumbent won election to a new, smaller district we will have a 14-to-1 advantage.
 - 5) This new crop of citizen-statesmen can then pass our proposed Bring Congress Home Act, to take Congress out of DC to work among the people they represent. With today's technology, it is time for Congress to join the 21st century.
 - 6) Every state or federal legislator is perpetrating or enabling crimes. AmericaAgain! is a new way of life, breaking up DC and using the AmericaAgain! Indictment Engine™ to indict them for violating the U.S. Constitution.
 - 7) AmericaAgain! will draft, refine, and *force* 22 key pieces of reform legislation through Congress to restore all we have lost to DC organized crime over 150 years. See Legislative Action for the reform laws.
- For the cost of a pizza per month, AmericaAgain! members will use the tactical force-massing power of a national organization to do our citizen duty in a few minutes per week, right from our mobile device or computer. No more political meetings, rallies or caravans to DC, to be laughed at by politicians.

Q: Who started AmericaAgain! and who will run it?

In late 2007, David Zuniga shut down his engineering practice and spent 14 months in a small travel trailer in the Texas Hill Country. He read and studied 110 books and hundreds of historic documents, essays and websites. Then over eight years with 27 other volunteers investing over 28,500 hours in R&D, the group studied the collapse of America; who is causing it, how D.C. organized crime operates, and how We The People can arrest it. The group reviewed and assessed every 'save America' plan they could find.

They discovered what *doesn't* work. Many excellent people and organizations teach and talk but do not repair the ruins, much less pursue D.C. criminals. Ron Paul, the TEA Party, secessionist movements, the 2nd and 10th Amendment movements, those calling for a constitutional convention, citizen grand juries, the Tax Honesty movement...none is a full-spectrum plan for popular sovereignty. And of course the *least* effective thing of all is electoral politics.

To learn about how our member organization will be run, see the appendices *Mission Milestones* and *Governance* in the book *Fear The People*.

Basically, AmericaAgain! will have nine regional Trustees elected to 4-year terms by a Council of Delegates. The Delegates are in turn elected by the members, each Delegate representing ten U.S. congressional districts to coordinate and support ten district leaders. In early years until membership is large enough to hold elections, the co-founders will appoint nine Trustees from among willing and competent members.

Q: It seems impossible to obey the Constitution and restore only silver and gold U.S. money. There is not enough gold on earth to do that; plus, doesn't that just reward evil gold-hoarders?

Organized crime's 155-year-long counterfeiting scheme is collapsing. Many major countries including Brazil, Russia, India, China, Iran, South Africa, and Germany are abandoning the FED cartel's counterfeit U.S. Dollar as their trading reserve currency. That mega-crime is headed for collapse.

Congress' \$220 trillion in unfunded liabilities also constitutes a ticking bomb. If a Great Depression II comes, to recover our economy we will be forced to return to lawful money stipulated in the Constitution. It is not true that there is insufficient precious metal; see Chapter 3 of *Fear The People*.

Q: Is AmericaAgain! membership open to my mayor, police chief, State legislator, or city employees?

No; AmericaAgain! is *citizen* self-government. Given the conflict of interests inherent in downsizing government, no politician can join as a member. We welcome their support, however – and their donations, since we have donated to *their* cause all our working lives

Q: A Christian organization, does AmericaAgain! accept people of other faiths?

Certainly. As a private member organization, we believe in the lordship of Jesus Christ and promulgate His fundamental place in the formation of our civilization (systems of law, social and family mores, economics) and we welcome as a member any American who can live with the Christian nature of our message without creating argument or dissent about it. We will not promote or promulgate any law respecting religious belief or exercise of religion, unless a supposed 'religion' calls for acts of oppression or violence to individuals or classes of people.

Q: You mention God and Jesus Christ in your Declaration; are you proposing theocracy?

Nothing in our organization proposes establishing religion. As long as they do no harm to others, Americans should be free to worship in any manner they like – or not to worship or believe in God at all. AmericaAgain! is a private member organization predicated on Christ and the Constitution. Anyone who is not so offended by our occasional mention of Christ and the Bible that they can support our AmericaAgain! Declaration, is welcome to join us.

Q: Can AmericaAgain! members get our court to indict our corrupt State legislators? They're as bad as Congress.

Yes; AmericaAgain! is focused on enforcing the Constitution against corrupt legislators in Congress and in the state legislatures. Other organizations may rise up to pursue corrupt city and county officials. If so, we wish them great success.

Q: What about Congress' sovereign immunity in the Constitution?

That clause (Article I, Section 6) says, "They shall in all cases except treason, **felony**, and breach of the peace, be privileged from arrest...". AmericaAgain! will bring state *felony* cases against members of Congress.

Q: But our State judges are as corrupt as federal judges!

That is a too-cynical view of American law. While we do not deny the existence of corrupt members of the judiciary and law enforcement, most are still honest, conscientious professionals. Having said that: if a State DA, prosecutor, or judge refuses to enforce the Constitution, AmericaAgain! members will work with TEA Party and other patriot groups in that district to replace the corrupt actor.

Q: But will my State Criminal Court Judge hear a case against a legislator? It's never been done.

Yes it has. In 2010, a Texas criminal court convicted former U.S. Congressman Tom DeLay on two criminal counts for crimes committed while he was Minority Whip of the U.S. House of Representatives.

Through the James Madison Briefing Room™, our Legal Section will brief State prosecutors and judges who are ignorant of their sovereign power to enforce the Supreme Law against felons in Congress or a state legislature. Our cases will ideally be brought in clusters, so prosecutors and judges will not have to take these historic cases by themselves, but will have identical cases being heard by other courts in the same State in approximately the same time frame.

Q: What about so-called 'Removal Jurisdiction'? They just get a federal judge to spring them!

Removal Jurisdiction (28 USC 1441) is a clever law allowing any federal actor brought up on State charges, to apply to the federal court to remove the case from the State courts. But 28 USC 1441 only applies to *civil* lawsuits brought in a State against a federal actor; it does not apply in criminal cases. More importantly, the court of public opinion would not allow an indicted politician to use a Get-Out-Of-Jail-Free card concocted by Congress itself, to free its members indicted of felonies! If they attempt it, AmericaAgain! will expose such tactics immediately in the international media. We are determined to end D.C. organized crime.

Q: Still, can't the bad guys in Congress just get federal courts to shut us down?

How? Article III, Section 2 stipulates that the U.S. Supreme Court has original jurisdiction only over cases concerning the U.S. Constitution or a federal law, or where a State is a party. In all AmericaAgain! cases, plaintiffs and defendants will be citizens of the same State and we will not touch federal matters. Inferior federal courts are even less of a factor, totally lacking jurisdiction.

Q: Can your AmericaAgain! Indictment Engine™ trump the Constitution's Supremacy Clause, that makes federal courts supreme over State courts?

That is not what Article VI, Section 2 ('Supremacy Clause') does. It stipulates that U.S. Constitution and all laws made in harmony with it "shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby...". So every State judge is bound not only to *obey* the Constitution but also to *enforce* it against members of Congress or their state legislature who, by defrauding those they pretend to represent, are also violating their State Penal Codes. In every such case, the State Judge is constitutionally superior to the federal judge.

Q: When I join AmericaAgain!, do I become part of my local Citizen Militia?

We are not the Citizen Militia; only a national resource to help push Militia legislation through State legislatures and Congress to force them to obey Article I, Section 8, Clauses 15 and 16 of the U.S. Constitution, and help citizens do their duty per Clause 15. We will network all AmericaAgain! groups in each state to push passage of your state 'Restoring Constitutional Militia Act'. To actually form your local militia unit, you must first have that legislation in place. Then your state or local government will appoint a training officer for your town, or your community may present your own candidate local training officer. Presently, you can join an Oath Keepers CPT (Community Preparedness Team) in your area, although we do not support its categorization of veterans and paid peace officers as special, whereas 'civilians' are second-class citizens; that is antithetical to constitutional Militia.

Q: What are we going to do about all the armored vehicles and billions of rounds of ammo being purchased by government local, state, and federal? Does AmericaAgain! have a plan to fight this power aimed at us?

Citizens should not trust governments any further than we can control them. But if a Great Depression II hits, gangs of roving thugs and starving, armed neighbors will be a harsh reality. We The People have not formed Citizen Militia as we stipulate in the Constitution, and *someone* will have to keep gangs from pillaging. AmericaAgain! supports Oath Keepers Community Preparedness Teams.

Q: I want to take real action, right now...what can I do to hit back at our domestic enemies *today*?

President Trump has kicked open the door of American history, the first non-politician and true populist president in over a century. Now is the time to act, and to do so decisively in *your* community.

You can launch an AmericaAgain! group in your church or your community (use Meetup if you live in a larger city). To support your planning and local PR efforts, contact our Publications Director for all items you will need to launch an AmericaAgain! group in your area. Spread the good news in social media; link to our videos, podcasts, and free eBooks.

As soon as you join, please get involved through our forum community. We can all avoid re-inventing the wheel by sharing best practices from coast to coast.

Host a showing of *AmericaAgain!–The Movie* for your group and discuss the movie afterwards.

Think of friends in your church or homeschooling group, Ron Paul advocates, End The Fed supporters, veterans group, ranchers and landowners, TEA Party supporters. No one has a better plan to restore our rule of law and our civilization. Give your friends hope by introducing AmericaAgain!. You can show the introductory video and PowerPoint presentation yourself, or invite our founder David Zuniga to do a call-in conference with your group to make the initial presentation.

President Donald Trump may be the most revolutionary populist president since Andrew Jackson. As an outsider to the perverse world of D.C. politics, Mr. Trump is the best possible ally for our unprecedented mission. But he will need tens of thousands — preferably hundreds of thousands — of Americans linked together with America’s only full-spectrum action plan, to get his administration to support our powerful reform laws. As David Zuniga has often reiterated, we are living in the most exciting time in American history!

Join as an AmericaAgain! member, then tell your closest friends. That is the first and most important step.

Q: Does AmericaAgain! align with the TEA Party movement or Ron Paul Revolution?

AmericaAgain! embodies James Madison’s principles, thus those of Ron Paul, so we are aligned with TEA Party groups that have not joined the GOP. The TEA Party is an important citizen awakening and will remain vital to electing local, county, and state servants who obey the Constitution. But Washington D.C. is organized crime, and elections cannot replace law enforcement. Ron Paul focused on electoral politics for decades, yet even after several TEA Party landslides, GOP corruption has only increased.

Q: Is AmericaAgain! a GOP front group?

No. Both parties are corrupt to the core; AmericaAgain! leaves party politics forever and does not support any party. To actually form your local militia unit, you must first have that legislation in place. Then your state or local government will appoint a training officer for your town, or your community may present your own candidate local training officer. Presently, you can join an Oath Keepers CPT (Community Preparedness Team) in your area, although we do not support its categorization of veterans and paid peace officers as special, whereas ‘civilians’ are second-class citizens; that is antithetical to constitutional Militia.

Q: What about the flood of illegal aliens coming across our border and flooding our schools and social services?

Among our 22 AmericaAgain! reform laws:

1. We end the lawless 'Anchor Baby' tactic
2. We finish building the border fence, and beef up ground and aerial border assets
3. We push Congress to get tough on enforcement
4. We restore the Citizen Militia of each state.

For 50 years since the Eisenhower administration, Congress has served corporate interests and the wealthy by looking the other way to provide housekeepers, nannies, gardeners, and dishwashers at 30 cents on the dollar... while taxpayers pay for the education and healthcare for those illegals' children. Our reform law #20 will finally end unconstitutional welfare state programs for rich and poor alike, removing the economic incentive for illegal immigration.

Q: What will AmericaAgain! do to stop Islam in America? Its terrorism is transforming us into another Europe!

While it is true that radical Islam has been tactically shrewd and ruthless in European history for 1,400 years, with respect to America consider three things:

- 1) Compare death tolls; the U.S. military has killed over a million Muslims in 15 years. A foreign power occupies and plunders their towns, and they will never forget it. Foreign invasions by the U.S. military have been longstanding violations of the U.S. Constitution, the oil industry receiving free security services as it sucks Arab lands dry of oil, raking in billions in profits every quarter while taxpayers foot the bill. Thousands of brave Americans give their lives, limbs, and sanity for banking, petrochemical, and arms industry bottom lines. This is lawless and totally un-American, and it has led to Muslim retribution, known as *blowback*.
- 2) At one time, Roman Catholics, Calvinists and Lutherans tortured, imprisoned, and killed those who refused to adopt their system. At one time, Mormon men kept a harem of wives, including pre-pubescent girls. We hear no national call to exterminate Roman Catholicism, Calvinism, Lutheranism or Mormonism in America because those belief systems now conform to America's laws. The same can be true of Islam; if we establish firm laws, it will then be the Muslims' choice whether their system is outlawed.
- 3) We mustn't follow the disastrous, politically-correct course of Europe. We will be tougher on terror than Mr. Trump plans to be. Click on *Let's Trump DC* and scroll to reform #4 to see how we will end the transformation of our civilization by the 1,400-year-long Muslim-Jewish war. Also read our blog article *Three Strikes for Islam*.

Q: Does AmericaAgain! agree with CSPOA, NLA, and Oath Keepers?

As we stated above, we do not support Oath Keepers' special status designation for 'professionals' as Militia. Nor do we agree with everything that Stewart Rhodes or Richard Mack say and do. But we support the mission and work of CSPOA and of Oath Keepers CPTs, and at present we consider them 'best of class' in preparing a community for whatever may come, whether natural or man-made disaster, social unrest, or military invasion by enemies foreign or domestic.

In the same way, we do not agree with everything that National Liberty Alliance has said, done, or is pursuing. But we support the organization's work to restore the Common Law grand juries, the highest judicial authority in this republic. When our Legal Section rolls out AmericaAgain! Indictment Engine™ pre-indictment packages, they will go to the Citizen Grand Jury. We also recommend the work of Jason W. Hoyt and his book *Consent of the Governed*.

Q: What about an Article V constitutional convention (con con) to repair our Constitution's flaws?

A latter-day 'ConCon' movement using the moniker 'Convention of States' is suggesting that in using that label, an Article V constitutional convention transmogrifies into a novel creation, impervious to a runaway convention (as indeed happened at the first and only ConCon in 1787). This nonsensical position is summarily dismissed by THIS article by veteran Article V scholar Dan Fotheringham and THESE articles by former JAG attorney and constitutional scholar Joanna Martin (aka 'Publius Huldah').

The ConCon idea is ludicrous; 11,500+ potential amendments to the Constitution have been proposed since 1789. Our servants violate the Constitution not because it needs amendment but because it needs *enforcement*. Criminals will not obey an amended Constitution any more than they obey the existing one.

Q: Why not just use Nullification?

That is presently the best option available, but it does not arrest most D.C. organized crime. For instance, since 1862 our federal servants have forced us to use worthless counterfeit paper as 'U.S. Dollars', in open violation of the Constitution. No State has nullified that crime, nor have the states fulfilled their duty to reclaim their sovereign public lands or to establish constitutional Militia in every community, in accordance with the Constitution. Our Constitution has one standard for all such things in all 50 States; nullification will only create an increasing hodge-podge and cannot possibly keep up with the juggernaut of D.C. organized crime.

Q: If I sign up, can we put my U.S. senator in prison right now? He's a criminal!

No; AmericaAgain! will take each tactical step in order as presented on our websites and books *FEAR The People* and *Mission to America*.

Once we have taken Congress out of Washington DC, this will change everything. That massive goal may take years to achieve. Building and refining the Indictment Engine™ will require extensive legal staff effort, thus money (dues-paying members). As any major effort, we crawl before we walk.

Q: Constitutional law firms such as Justice Foundation, Rutherford Institute, American Center for Law and Justice and others already exist. Why assemble another national legal team?

Because no public interest law firm works on prosecuting criminals in government. Excellent organizations such as those listed above defend people whose constitutional rights are threatened. The Legal Section at AmericaAgain! will offer more vital public interest law, defending the U.S. Constitution itself.

Q: Will the 28th Amendment grow the Electoral College from 535 electors to 6400 electors, and how will this change presidential elections?

Yes, the number of electors in the U.S. Electoral College will rise to about 6,500 from its present 535 when we get the 28th Amendment ratified. As with U.S. House representation, this means that Americans will have electors for rural and small-town populations, not only for urban areas. This will make Congress and presidents more representative of *all* their sovereigns, the American People.

The Information Age is swinging the pendulum against the Industrial Revolution's demographic shift to big cities. Population patterns are moving from urban zones, with E-commerce and telecommuting. Now, we do not need to 'go to work' or 'go shopping'; UPS, FedEx or Amazon drop things at your door and the company you work for would rather not carry you as full-time overhead.

While this rural shift will make America marginally more conservative, Americans moving to the countryside and small towns are not the agrarians that their great-grandparents were. And of course the Internet delivers urban godlessness into any home or mobile device. But Thomas Jefferson's observation is still true, that rural life has a calming, civilizing effect.

Q: Enforcing the U.S. Constitution seems so obvious; why haven't we done this before?

For the same reason the Pharaohs didn't have air conditioning: there's a time for everything in history. Some days the world just changes.

Q: There are so many ‘save America’ plans asking for donations. None of them is doing anything. Why is AmericaAgain! different?

AmericaAgain! is a full-spectrum, long-term *action* mission that is peaceful, practical, and perpetual. We have staffing and facilities plans in place and legal organization (perpetual charitable trust) to deliver results and accountability to its members over generations.

After more than eight years and 28,500 hours of due diligence by two engineers, a former U.S. Secret Service agent, a Fortune 500 tech manager, a former helicopter instructor and software programmer and 22 other volunteers, we believe AmericaAgain! is the best action plan. If you find better organizations, support them; we are all on the same team.

Q: Most Americans don’t seem to care that D.C. is corrupt; they seem so apathetic. And what about those who abuse welfare, unemployment, Medicare, Social Security and other welfare state programs? Are you suggesting that we can get the majority to reform their lifestyle?

Unlike electoral politics, AmericaAgain! does not need a majority. Just half of 1% of the population is 1.6 million citizens. Even after we get the original First Amendment ratified and have 6,400 congressmen in the U.S. House now representing small districts, we would have 250 members for each member of Congress. That is a powerful numerical advantage, with AmericaAgain! staff and leadership coordinating their efforts.

The Obama administration signals the *end* and not the beginning of American communism as defined by Karl Marx. Abe Lincoln admired Marx and launched American communism as explained in Lesson #2 in this book. Woodrow Wilson and FDR made things worse; after the Great Depression, the cartels doubled down, putting their people in federal regulatory agencies.

The welfare state is not only entirely illegal according to the Constitution. It is also cruel and degrading to those it ‘helps’, and tyrannical and lawless to those whose payroll accounts it skims to do the ‘helping’.

AmericaAgain! will equip citizens to enforce rule of law from millions of homes and mobile devices, retain control of what we earn by our honest effort, and keep government out of the extortion and coercion business, so that individuals, churches, and charities can resume our traditional roles as America’s support system for the truly needy, rather than letting government breed generations of parasitic citizens who will vote for them.

Q: But my U.S. Congressman and Senators are some of the good guys. Will you leave them alone?

Like every government on earth, Washington D.C. is systemically corrupt. For over a century, the wealthiest 1% of 1% of American families have run the lives of the rest of us, using Washington D.C. as their personal servant.

This is the Deep State; the key players in the world’s corrupt system. We The People cannot easily pursue these powerful people. Moreover, most government agencies, bureaus, and departments are bureaucratic Leviathans nowhere allowed by the Constitution, yet they grow in size and power every year.

Even honest statesmen cannot stop organized crime. Those who attempt it are simply killed.

The answer is to reduce the size of congressional districts just as the Founding Fathers designed them to be. The new, large U.S. House comprised of citizen-statesmen will then enact our Bring Congress Home Act; they go to D.C. for a few days to enact that one new law, then return home to work from modest lease offices as most of us are used to. We take Congress out of D.C. forever, and We the People regain supervision over our servant representatives.

Perhaps a few incumbents will run for the new, much smaller districts. But every incumbent today is perpetrating Congress’ FED counterfeiting and banking industry fractional reserve frauds, even if only a criminally negligent co-conspirator.

By signing on to support our 22 reform laws, they remain one of the good guys. Only the serious threat of a long State Penitentiary term and seizure of all family assets will tie the hands of D.C. organized crime until we remove Congress from Washington D.C. and bring them to work from their home districts for good.

The war for our future is Washington DC vs. America. We the People must take our representatives out of the enemy camp!

Q: Wait a minute; isn’t this extortion?

No. It is We the People finally arresting DC organized crime, via the prosecutor’s everyday methods.

Q: What do you mean ‘force legislation through’; can we get them to do things they don’t want to do?

First, AmericaAgain! members will help locate, recruit, and support citizen-statesmen congressmen in our AmericaAgain! Good Guys™ campaign so they will fight for the U.S. Constitution at last. They publicly sign on to our 22 reform laws, agreeing to sponsor or co-sponsor each of these pieces of legislation as we reach critical mass of public support.

For incumbents, the same will hold true, but we will use the criminal prosecutor’s favorite tools. Those who ignore or refuse to sign the immunity deal will be targeted for indictment in their State Criminal Court where they will face the criminal prosecutor’s second-favorite tool: the plea bargain agreement.

The plea-bargain package will be identical to the immunity deal they were offered earlier: co-sponsor our 22 reforms and we drop the charges; otherwise, we will seek to have the Court pursue their criminal prosecution.

Q: Are you aware that our Congress is not our *de jure* Congress because criminals are operating under color-of-law? What about BAR card members, titles of nobility, and the original 13th Amendment? What about the UCC, admiralty law, Roman law, merchant and Talmudic laws, and corporations waging war on Americans?

These assertions are *esoteric law* – by definition, a supposed ‘law’ foisted on people without their knowledge or consent.

If an arrangement is truly secret and violates the Constitution, it cannot apply to the American people. It would be a crime to establish a secret arrangement without due process, but only to the extent that a victim can show harm. If a lawless arrangement is only in the imagination of the secret cabal and those who discover them, it establishes no legal liability or duty on the People.

The Internet has given rise to countless discussion threads and esoteric ‘patriot’ groups, whose most active members end up in jail or simply enjoy being on television. Esoteric law theorist groups have spent years destroying their followers’ physical and mental health as they chase ghosts into corners.

The mission and objectives of AmericaAgain! are set out in the books *Fear The People* and *Mission to America*, both of which are available as free PDF downloads. To leave the world of secret cabals and to re-join others in the real world that most Americans recognize, join AmericaAgain! and become part of the solution.
