

Ask Biden in the Debates.

The media is treating Biden with kid gloves.

Why?

bias.

The liberal media cartel (NBC, CBS, ABC, MSNBC, CNN, NY Times, Washington Post, even AOL news, and some of the commentators on FOX *like Chris Wallace*) have the Democrat dog in this fight just as they did with Clinton in 2016 and Obama in 2008 and 2012.

94% of reporting about Trump is negative while **less than 1/3** about Biden is negative.

They use each other as references for material.

Circular referencing.

That is the same circular referencing that they used with the Steele Dossier and that was used to justify spying on the Trump campaign where the IG found 17 violations by the FBI.

So we need questions to lots of answers by Biden that the media is not doing an adequate job of asking.

No follow up questions.

A democracy depends on complete information.

The media is failing at its job.

Let's start with these for Joe:

We need answers about:

Burisma,

low job growth and negative wage growth compared to inflation during the 8 years of Obama/Biden,

the Biden voting record about invading Iraq,

Biden recommendation to divide Iraq into 3 countries,

lack of action against China exploitation of the USA under Obama/Biden,

why Obama/Biden did not honor their commitment to move the USA embassy to Jerusalem,

what did Biden accomplish in his 47 years as a government employee,

how come he has no private sector experience in 47 years,

plagiarism in law school,

and plagiarism when running against Dukakis.

Then move on to these. Ask Biden:

1. What did Trump actually say that disparaged the military records of veterans other than McCain that is from sources that are not anonymous?
2. What did you mean when you said that "you ain't Black (if you vote for Trump)?"

3. What specifically, not generalities, would you have done differently from Trump for stopping the coronavirus if you had been president?
4. What specifically will you do to grow jobs and wages faster than what Trump did prior to the virus or now in the economic recovery from the shut down for the virus?
5. How do you specifically plan to change the tax reforms implemented by Trump?
6. What specifically do you plan to implement to end the violence and increased murders in large cities like Chicago, Portland, LA, Seattle, NY, Detroit, Atlanta (all controlled by Democrats)?
7. What specifically will you do to end the exploitation of the USA by China and to end the trade deficit with China? Why didn't you do it under the Obama/Biden administration, especially when Democrats controlled both the House and Senate?
8. What specifically will you do to end illegal immigration? What about the wall?
9. What specifically will you do to help American workers? And why didn't the Obama/Biden administration do it when Democrats controlled both the House and Senate?
10. What is your criteria for nominating judges to the Supreme Court? What were your specific concerns about Kavanaugh and Gorsuch?
11. Specifically, what is wrong with USMCA?
12. What specifically will you do to bring jobs, manufacturing, and off shore funds back to the USA? Why didn't the Obama/Biden administration do it?
13. 50 years of affirmative action, quotas for hiring and promoting blacks, and bussing did little to help Black cultural problems. What will you do specifically to fix the problems of 75% of black children raised in homes without fathers and the Black violent crime rate per capita that is 5 times more than the rest of society and the low Black scholastic achievement?
14. When is abortion wrong? What are your plans for funding Planned Parenthood?
15. What are the limits to religious freedom?
16. What are the limits to the rights in the 2nd Amendment?
17. Will you bail out cities/states for budget deficits that were not caused by the pandemic?

When?

Why?

18. The Obama/Biden administration deliberately stopped the Keystone Pipeline, drilling in Anwar, and the use of coal. The USA achieved oil/energy independence under Trump for the first time since Eisenhower. So what will you specifically do to maintain that oil/energy independence now, not at some time in the future, but now?
19. Documentation and testimonies show that you and Obama were aware of the actions by the FBI to spy on the Trump campaign and that there was no credible evidence to justify the Mueller investigation or the FISA warrants. So what did you do to try to stop those actions?
20. The Obama/Biden administration cut the military % of the federal budget. Trump increased it with \$2.7 trillion. What % of the federal budget do you plan to allocate to the military if you are elected commander-in-chief as compared to now under Trump?

So who will hold the media accountable to ask these questions of Biden?
