Thoughts for today:

History has shown, without exception, that man-made social constructs such as every socialist, communist, leftist, fascist and Godless government on earth has only led its poor citizens into tyranny, despotism, failure, poverty, despair, war, prison and death.

Capitalism, by contrast, is a purely natural construct wherein free individuals serve their own economic interests based simply on supply and demand - not Government edict! It's tragic that the left cannot and will not learn from history!

THE DEMOCRAT PARTY

PROTESTORS AND LEAKERS

GROWING AND VERY CONCERNING PROBLEMS

by Robert J Firth

Recent statements by the likes of Senator Schumer and other negative and limited minds populating the ranks of the left are of great concern to those of us who want to see America prosper. These nihilistic voices of hate wish to force their dark visions of despair and ruin on our great country. The tragic destabilizing years of Obama were their greatest triumph and had not God stepped in with Donald Trump to prevent an ever greater evil, (*Clinton*), it's likely the dream of freedom on earth would have been quashed forever!

America is the only truly free country in the entire world! I have traveled everywhere there is to travel and know this to be an absolute fact. Yes, we have lost many freedoms over the years and, given the wishes of the far left, we would lose all. By forcing the 700 regulatory and federal departments and agencies to get rid of two old regulations for every new one they dream up, we are gradually untying the thousands of job and growth killing bindings placed on us by the liberal Lilliputians.

In 1950 America was a country of 150 million. Today, 67 years later, we have some 320 million most of whom obviously could not have been born here. President Trump was elected by those of us who love America and almost all who voted for him were here in 1950 or their children.

Today, we have a very far left media squealing and braying against every single statement and act of our president. The level of hostility on the left is unparalleled and unprecedented. These evil people and their ignorant masked minions, smashing windows and drowning conservative speech, are trying to tear America apart. They must be stopped!

Purely evil groups like BLM are preaching hatred and anarchy- calling for the murder of our Policemen. They are being assisted by far left politicians who, seeing political advantage, applaud the prosecution and publication of any and all police involved shootings regardless of justice. Half of all prisoners are black, half of all street crime is committed by blacks and half of all blacks hate America. Type "half of all blacks hate America" into any search engine and 2 million articles pop up in seconds.

To make sense of (understand) the motivation driving the continuous and concerted effort on the part of the left to denigrate and thwart the efforts of the Trump administration one must understand who and what they are. To do this we begin in the early 60's when the observable forces of the left began to coalesce and emerge from their drug-induced stupor to reach for political power and influence.

To get a grip on the situation, we will discuss the protestors and the leakers separately although, in truth, they are most certainly conjoined but, for the purpose of this discussion, it's best not to conflate them. First, who are the protestors and why are they acting out? Where did they all come from? Why are they screaming in the streets, smashing windows, burning our precious flag and hurting people? They are not just Democrats, at least, not in the traditional sense.

The regular Democrats back in the day were working guys like my Grandfather who spent his life as a Butcher for A&P. All he ever wanted was a fair deal and for him, Roosevelt's 'new deal' was good enough. Working men back then were patriotic Americans who loved their country, worked hard, paid taxes and raised their families. We called them "The Greatest Generation" Funny thing - the Tea party today looks a lot like the Democrats of old!

The kind of organized protests we are seeing today didn't JUST happen and the participants didn't JUST happen. There's a series of events over 50 odd years that that we need to look at closely to understand who and what these hateful, rabid and un-American flag-burners really are!

THE EVENTS THAT BEGAN THE DESTRUCTION OF AMERICA

Let's begin with Jack Kerouac, who wrote On The Road, (published by Viking Press in 1957). Kerouac was one of the early 'hero's' of the so-called "Beat" Generation. He was associated with the San Francisco flower-power resistance movement which gradually gave way to the 1960s era counterculture, accompanied by a shift in terminology from "beatnik" to "hippie." Allan Ginsberg was another leader of the scruffy, degenerate Greenwich Village bunch. He wrote Howl in 1961. It was one of his better known nonsensical odes to drugs and sex followed by Kaddish and other idiotic poems. Thousands of leftie losers genuflected at his feet and his work became touchstones for a lost generation. He claimed that some of his best stuff was written under the influence of drugs. No surprise!

Because the influence of hallucinogenic and other drugs plays a major role in the development of today's protest movement, we have to include Timothy Leary, an early advocate of LSD experimentation, who wound up demented and disgraced after causing a few kids deaths when they attempted to fly out of high-rise windows. Leary taught psychology at Harvard (where else) and by 1960 was experimenting along with his students with copious dosages of LSD and other mood and mind-alternating drugs. His 42-year-old daughter died after she used a shoelace to hang herself from the bars of her jail cell in Los Angeles.

One of the great shocks to America and especially to the "ever-so-sensitive" whining hippies occurred shortly after noon on November 22, 1963 when President John F. Kennedy was assassinated in Dallas. Johnson, the VP, a low-minded uncultured, conniving, old-time ward-heeler democrat became president! The anti-war mobs began forming, frothing and howling in the streets- a clear precursor to today's squealing well-organized, Soros funded madness infesting our country.

1963; another sad occurrence in the 60's was the Warren Court's vote to kick God from the public schools. The direct result of this inane act by a pack of fools in black gowns ushered in an era of secularism and Satanism resulting in kids shooting kids (Columbine) and generations of publicly schooled kids who never learned (or learn) moral restraint.

Who did they think was going to come in the front door when God was thrown out the back door? The court created a 'moral vacuum' and God knows, nature abhors a vacuum! As the direct result, millions never learned God's Commandments (restraint, right and wrong) and the enormous value and importance of religion in ones life. Their mantra was "if it feels good do it!" This is especially true for those sad children of the drugged hippies who never introduced their kids to church.

Woodstock; in August of 1969 the Woodstock Festival was held. This was an ear splitting monster rock extravaganza attracting an audience of over 400,000 drugged-out, drop-out, free sex, low-life scum. It was scheduled over three days on a dairy farm in New York State. It rained and the crowds, smoking tons of weed and swilling kegs of beer and liquor, wallowed and frolicked for 3 days naked in the mud. None emerged as

recognizable patriotic Americans- most have remained mired in the diseased counterculture raising their many children (*mostly without knowing who the fathers were*) to follow in their anti-American ways. All were and remain loyal liberals, members of the counter-culture and addicted to entitlements.

Also in 1969; Charlie Manson, sent his evil drugged-out minions, Watson, Atkins, Krenwinkel and Kasabian to murder Sharon Tate and her friends. A jury also indicted the five, plus Van Houten, for the LaBianca murders. Now, all of us in America woke up to the fact that hippies are dangerous! No longer were they considered to be just an amusing dirty, flea- infested, ugly pack of unshaven swine-now they were murderers!

Also, beginning in 1969 (a fateful year) the Weather Underground, a militant radical left-wing organization (*aren't they all*) was born at the University of Michigan. They first organized as a faction of Students for a Democratic Society (SDS). Their disgusting goal was to create a clandestine revolutionary party for the overthrow of the U.S. Government exactly as the communists in Russia did in 1917. They went on bombing, murdering and inciting murder until the late 70s led by Bill 'the mad-bomber' Ayers- who today, still is allowed to teach at the University of Chicago! Why?

With revolutionary positions characterized by Communism, black-power and vehement and vocal opposition to the Vietnam War, the group conducted a campaign of bombings taking part in actions such as the jailbreak of Timothy Leary. The "Days of Rage", their first public demonstration, was held on October 8, 1969 in Chicago coinciding with the trial of the Chicago Seven. In 1970 the group issued a "Declaration of a State of War" against the United States Government, under the name "Weather Underground Organization." Yet Billy is still permitted to teach our kids?

Then, on May 4 of 1970, the Kent State shootings occurred. The students were protesting the U.S. invasion of Cambodia (*interestingly, it was shown later that not one of them knew where Cambodia was*) and the presence of the Ohio National Guard on their campus. The young soldiers, seeing the long-haired, drugged-out freaks pelting them with bricks and rocks, open fire killing four! The millions of their fellow freaks across America went into shock and then went nuts!

A few years and many protests later- in 1973 we saw the totally phony Arab oil embargo with gasoline rationing. Cars were lined up all across America waiting hours for a few gallons of gas. Meanwhile, hundreds of oil tankers were parked offshore under orders not to deliver the oil. Many knew this was a manufactured shortage. As a pilot, I actually saw the parked ships. Interestingly, your decision to free America from Arab oil forever is exactly what can and will save us in the event OPEC ever tries a repeat. America and Canada have enough proven reserves to last 250 years.

1974 Watergate; a continuing series of revelations driven by the many lefties in the media, resulted in Nixon's resignation due to almost certain impeachment and removal from office. The lefties won a huge victory! Interestingly, Obama wiretapping your NY office is a far more invasive and serious crime than breaking into an unoccupied office. Does he get a pass on this and go on collecting his taxpayer paid retirement? I'd hope not!

This period then, from 1960 to 1977, can be called the period of 'leftie fermentation.' The ex-hippies, today in their 50's and 60's, still smoking pot and mixing it with cocaine, are working in the media, our schools and government. In these positions they never stopped organizing and strengthening the movement which was and remains dedicated to the destruction of our country and our constitution. They are well and truly dedicated to the collective, progressive dystopian world dreamt up by Karl Marx and his demented totalitarian minded followers.

The above events forever changed America. The country was shaken to its foundations- which cracked! It appeared that Government on all levels was powerless to check the slide into anarchy, debauchery and drug induced stupor. Millions tuned out and dropped out. A visceral hatred for all authority was (is) growing-represented and visible today by the unceasing torrent of lies (fake news) pouring out of the twisted bent media along with the ugly crowds, rampaging through our streets, demanding more freebees, burning our flag, destroying property, murdering our police and hurting innocents- an ungodly problem of massive proportion!

Many of the whacko left had children who, following in their parent's footsteps, are many of those we see in the streets, wearing masks, smashing windows and attacking innocents. They make up the core of professional anarchists and bully-boys funded by George Soros who's money is behind and directing the anti-Trump riots across our country. A Soros-funded Group was behind the violent UC Berkeley protests which have morphed today into anti-Trump riots across the country which amount clearly to a provable conspiracy (a prosecutable crime) to undermine our country! High treason!

So who is George Soros? Soros is the single most destructive leftist demagogue in the country. Soros started the Open Society Institute in 1993 as a way to fund destructive progressive causes. Using Open Society as a conduit, Soros has given more than \$7 billion to a who's who of over 200 left-wing anti-American groups Soros comes from an anti-Semitic Jewish family and was a Nazi collaborator.

Soros once said that removing President George W. Bush from office in 2004 was the "central focus of my life." He puts his money where his mouth is, giving millions to various seditious groups dedicated to destroying America. His financial support helped start the great faker Barack Obama's political career. Soros would like nothing better than for America to become a deeply socialist country subservient to international bodies

He wants more power for groups such as the UN, World Bank and International Monetary Fund. In 1998, he wrote: "Insofar as there are collective interests that transcend state boundaries, the sovereignty of states must be subordinated to international law and international institutions."

In the appendices, we listed over 200 institutions and groups funded by Soros for the express purpose of destroying America and our constitution. We will never defeat this new left until we know the enemy. A careful reading of the list of these very dangerous and subversive leftist orgs will give you an idea of the magnitude of what you (we) are facing. Soros also funds the diseased Black Lives Matter organization which is advocating for their demented followers to murder our police. They won't stop until they are stopped! One document revealed Soros donated \$650,000 to this sick group. This alone should be enough to have him arrested and deported.

Also, listed in the appendices, are the many literary voices of the left influencing and alienating our impressionable youth in schools and universities across America. As the money to pay tuition and fund these schools comes from the taxpayers, (*which are 90% normal God-Fearing decent and patriotic Americans*) we are, in fact, buying the rope that is being used to hang us.

REMEDIES

In all my previous messages to you I have offered several suggestions which could provide remedies to various domestic and international problems. In the case of this huge subversive movement you (we) are facing, solutions are available but highly complex. Unless we make a truly concerted and determined effort, I personally don't like our chances for success -but, in any case, here they are:

First, we have to recognize that enormous numbers of our citizens (*including the 30 million illegals- not 11, there are that many in CA alone.*) are on the side of the far left libs and are all very anti-American. The numbers we are facing are in the area of 50 million. One way to find out who many of them are is by obtaining the membership roles of the 200+ anti-American leftie organizations we number in the appendices. The members belonging to these evil groups easily number in the millions. All have families who sympathize so that number is easily multiplied by 3, 5 or more. 80% of all Blacks are included in this population as are 70% of all Latinos both legal and illegal.

American Exceptionalism is an idea! We are in a war of ideas! Those with the best and most attractive ideas win. America itself is an idea based on the premise that the individual knows best how to run his own life and that government should not be intrusive. Throughout history, the collective has failed miserably, all socialist governments have failed and are failing. For America to survive and succeed that is the story we must tell loudly and often! The people of the left must be shown and persuasively taught (over and over again until it

sinks in) that the Sanders of the world are absolutely and positively dead wrong! History is on our side in this and we have to get off our lazy asses and compete in the world of ideas- do that and we can win!

Over the past 50 years our public schools (*run by far left unions and administrators*) have thoroughly indoctrinated generations of kids into hating their own country. The interviews that Jessie Waters presents on FOX are demonstrative of the massive ignorance and alienation of our young citizens. What the public schools start the universities, with guys like Bill 'the-bomber' Ayers, Chomsky and Ward Churchill finish! Until we get these twisted monsters out of our educational system we will only get more of the same- eventually their students will be the majority, not only in plurality but the Electoral College as well!

George Soros funds all of the 200 subversive organizations we list in the appendix. Shut Soros down and all his anti-American organizations will very likely quietly disappear! He is the key to stopping a lot of the madness! None of the shrill crazy voices of the left will step up to take his place and provide money to keep these dangerous organizations running. First, no one has the money that George does and no one would want to be the next subject of a vigorous investigation by Jeff Sessions. Get rid of Soros and save America!

As many charges as possible can be leveled at Soros himself hopefully, taking his mind off destroying our country while focusing on saving his own skin. With Jeff Sessions at Justice and his firing 47 of the Obama lawyers, we can most certainly focus attention on finding laws that Soros has broken-I'm sure there are many. Possibly, we can even jail him. We can, at the same time, infiltrate and undermine as many of these dangerous organizations as possible to weaken their support and perhaps even shut some down and send a few to evil-doers to prison.

Something to consider also is that half of the democrats in congress are also members of many of these diabolical, leftie Soros funded groups and many of them include or are made up of far left lawyers. I don't believe there are many effective purely legal stratagems that will have much effect in shutting them down.

It looks to me that the best way to defeat them and save our country is to use massive counter-propaganda measures designed to dissuade as many of the borderline lefties as possible from supporting or joining these collective communist groups. How to do this? Let's use our many outstanding armed service personnel (especially minorities) as role models and create national podiums (TV, Radio, public appearances, etc.) designed to present them as real-American heroes! I believe that by so doing, we would have significant success in changing the negative culture. In WW-II we sent exceptional soldiers all across America to sell war bonds and the effort had astounding results. We can do this again! Some actors and sports figures are on our side than they too can be employed in this effort. Patriotism in America isn't dead, it's just been anesthetized by anti-American propaganda- We can give it a shot of adrenalin!

We can commission movies and TV shows showing subversive crazed America haters in extremely bad light. We can present the BLM group and all the others as horrible, ugly and truly nasty humans which no one would ever wish to emulate. This can be done without naming any of them such that they might try to use our courts to protect them from defamation. Such horrible sub-rosa publicity can go a very long way to making America safe for democracy and protecting our way of life and our constitution. It's way past time we fought back!

LEAKERS

Let's focus on who they are, how to find them and how to stop them

"DRAIN THE SWAMP!"

Just as an example, 90% of all state department employees voted for Hillary and helped to fund her campaign I'm sure that this is true throughout 90% of all 700+ federal departments and agencies-which, I'm certain, that few in congress or anywhere ever heard of. On page 31 of the appendices, we list all 700 federal agencies and departments which, when one actually sees, is an eye-opening and disheartening experience!

Considering this enormous number of apparatchiks (bureaucrats) which make up, in fact, an army far larger than any real army in history, one can quickly and truly appreciate that absolutely nothing can be done in the way of getting rid of enough of them to make any positive changes whatsoever. Therefore, impose, as you have done, a permanent hiring freeze which will, over time, whittle down their numbers.

Also, as you have sent your top men to run each of the larger agencies, I suggest that they create around them, from loyal decent Americans, action teams with separate offices such that they have zero interaction with the thousands of effete, pointy-head leftie bureaucrats who will, by the way, have all their authority removed- they are free to watch porn all day as they mostly do anyway- maybe a few can be prosecuted or fired.

As an obvious precaution, I'd set up the servers such that employees in these by-passed offices can't send or receive electronic mail. All USB and CD burner ports should be removed as well as wifi from every government computer and office and no one gets into any building with a personal laptop. The silence will be welcome and deafening! All suspected leakers (90% of the all) should be pro-forma scheduled for FBI interviews with the stipulation that those found lying will be severely prosecuted. Immunity, with retirement can be offered to the truth tellers. Amazingly, I predict that hundreds, maybe thousands will resign or take early retirement and move to Panama.

The action teams at each and every principal agency will formulate the direction and push the efforts of their agency absent leftie knowledge and interference. An important result of this will be to completely eliminate the embarrassing and criminal leaks. You can assume absolutely that all the information handed over to the leftie media comes from disloyal democrats like Sally Yates and many despicable others hiding in Government offices. Cut them out of the loop and the leaks stop! Perhaps, as a bonus, once they are seen to be useless, funding for 70% of the 700 redundant, costly, destructive and useless departments and agencies can then actually be withdrawn and they will quietly disappear. That would be a great service to the American people.

As to the Intel agencies; to be effective intelligence there is no substitute or replacement for HUMINT. Humint is that body of information obtained from agents on the ground. We have an over-reliance on technology to gather information which is obviously limiting in terms of predicting events which is one of the principal purposes of intel agencies. Missing 9/11 is one of the prime examples of this 'at distance intel' as is the Boston bomber fiasco and a dozen others equally embarrassing.

Sincerely,

21. •**The American Prospect, Inc.**: This corporation trains and mentors young left-wing journalists, and organizes strategy meetings for leftist leaders.
22. •**Amnesty International**: This organization directs a grossly disproportionate share of its criticism for human rights violations at the United States and Israel.

25. •**Aspen Institute**: This organization promotes radical environmentalism and views America as a nation plagued by deep-seated "structural racism."
26. •**Association of Community Organizations for Reform Now**: This group conducts voter mobilization drives on behalf of leftist Democrats. These initiatives have been notoriously marred by fraud and corruption.

29. •**Bill of Rights Defense Committee**: This group provides a detailed blueprint for activists interested in getting their local towns, cities, and even college campuses to publicly declare their opposition to the Patriot Act, and to designate themselves "Civil Liberties Safe Zones." The organization also came to the defense of self-described radical attorney Lynne Stewart, who was convicted in 2005 of providing material support for terrorism.

32. •**Brennan Center for Justice**: This think tank/legal activist group generates scholarly studies, mounts media campaigns, files amicus briefs, gives pro bono support to activists, and litigates test cases in pursuit of radical "change."

33. •**Brookings Institution**: This organization has been involved with a variety of internationalist and state-sponsored programs, including one that aspires to facilitate the establishment of a U.N.-dominated world government. It is committed to "developing a long-term vision of a progressive America" and "providing a forum to generate new progressive ideas and policy proposals."
43. •**Center for Community Change**: This group recruits and trains activists to spearhead leftist "political issue campaigns." Promoting increased funding for social welfare programs by bringing "attention to major national issues related to poverty," the Center bases its training programs on the techniques taught by the famed radical organizer Saul Alinsky.

The organization has filed state and federal lawsuits demanding access to taxpayer-funded abortions (through Medicaid) for low-income women.
48. •**Center for Responsible Lending:** This organization was a major player in the subprime mortgage crisis. SECONDARY" OR "INDIRECT" AFFILIATES OF THE GEORGE SOROS NETWORK

In addition to those organizations that are funded directly by George Soros and his Open Society Foundations (OSF), there are also numerous "secondary" or "indirect" affiliates of the Soros network. These include organizations which do not receive direct funding from Soros and OSF, but which are funded by one or more organizations that do.

•**Center for Progressive Leadership:** Funded by the Soros-bankrolled Democracy Alliance, this anti-capitalist organization is dedicated to training future leftist political leaders.

•**John Adams Project:** This project of the American Civil Liberties Union was accused of: (a) having hired investigators to photograph CIA officers thought to have been involved in enhanced interrogations of terror suspects detained in Guantanamo, and then (b) showing the photos to the attorneys of those suspects, some of whom were senior al-Qaeda operatives.

•**Moving Ideas Network (MIN):** This coalition of more than 250 leftwing activist groups is a partner organization of the Soros-backed Center for American Progress. MIN was originally a project of the Soros-backed American Prospect and, as such, received indirect funding from the Open Society Institute. In early 2006, The American Prospect relinquished control of the Moving Ideas Network.

•**New Organizing Institute:** Created by the Soros-funded MoveOn.org, this group "trains young, technology-enabled political organizers to work for progressive campaigns and organizations."

•**Think Progress:** This "project" of the American Progress Action Fund, which is a "sister advocacy organization" of the Soros-funded Center for American Progress and Campus Progress, seeks to transform "progressive ideas into policy through rapid response communications, legislative action, grassroots organizing and advocacy, and partnerships with other progressive leaders throughout the country and the world."

•**Vote for Change:** Coordinated by the political action committee of the Soros-funded MoveOn.org, Vote for Change was a group of 41 musicians and bands that performed concerts in several key election "battleground" states during October 2004, to raise money in support of Democrat John Kerry's presidential bid.

•**Working Families Party:** Created in 1998 to help push the Democrat Party toward the left, this front group for the Soros-funded ACORN functions as a political party that promotes ACORN-friendly candidates.
