When will this nightmare end? When YOU join the only real action plan in America, and we launch chapters in all 3141 counties!

We finish ratifying the original First Right in our Bill of Rights, so we can split Congress into small districts so that big cities don't run elections. Then we take Congress out of D.C. forever with our Bring Congress Home Act: they work by telepresence from a lease office in their own towns with a staff of two, 50% of their current salary, only two terms, and no benefits.

**Tactical Civics™** is restoring the Grand Jury and Militia in the counties to finally *enforce* the Constitution. Our 19 reform laws will end the Deep State hijacking and eventually restore all that we have lost to DC organized crime.

**Tactical Civics™** chapters are in hundreds of counties; why not yours? Spread a *real* plan and *good* news! Go to [TacticalCivics.com](http://TacticalCivics.com)
